WATERTOWN, Mass.--(BUSINESS WIRE)--Nov. 6, 2013--

Enanta Pharmaceuticals, Inc., (NASDAQ:ENTA) a research and development-focused biotechnology company dedicated to creating small molecule drugs in the infectious disease field, today announced that Jay R. Luly, Ph.D., President and Chief Executive Officer, will present a corporate overview on November 13 at 3:30 p.m. MST, during the 2013 Credit Suisse Healthcare Conference in Scottsdale, Arizona.

The presentation session will be webcast live and a replay can be accessed by visiting the Investor homepage section of Enanta's website at [www.enanta.com](http://www.enanta.com). A replay of the webcast will be available following the presentation and will be archived for approximately 30 days.

### **About Enanta**

Enanta Pharmaceuticals is a research and development-focused biotechnology company that uses its robust chemistry-driven approach and drug discovery capabilities to create small molecule drugs in the infectious disease field. Enanta is discovering and developing novel inhibitors designed for use against the hepatitis C virus (HCV). These inhibitors include members of the direct acting antiviral (DAA) inhibitor classes – protease (partnered with AbbVie), NS5A (partnered with Novartis) and nucleotide polymerase – as well as a host-targeted antiviral (HTA) inhibitor class targeted against cyclophilin. Additionally, Enanta has created a new class of antibiotics, called Bicyclolides, for the treatment of multi-drug resistant bacteria, with a focus on developing an intravenous and oral treatment for hospital and community MRSA (methicillin-resistant *Staphylococcus aureus*) infections.
